

## Product Info

Date: 24/10 - 2006	Product info.: 10-2006	Written by: Fredrik Delås
Item: Angle adjustable foot support	Delivery: From this date	

From this date we are supplying the angle adjustable foot support with a "face lift".

To reduce the "technical look" of the angle adjustable foot support we are now implementing a change of colour on some components to black:

1. The nut for the calf support bracket.
  2. The plastic sleeve for the angle adjustable piece.
  3. The "fork" for the angle adjustable piece.
  4. The screw and washer for the height adjustability of the foot plate.
- In addition the locking pin between the foot plates will be black.

There will be no changes in item numbers.
